

## Installations of Mag life Devices on Poultry Farms

The set of Mag life Devices is installed on the inlet and outlet of main overhead water tank and on each individual drinking water line entering control shed.

- Birds gain weight faster which reduces maturity period by 3 – 5 days.
- Water TDS is normalized and balanced (High salted water is otherwise harmful for birds.)
- Immune system is substantially improved to resist viral diseases.
- The Egg-laying qualities of birds increase upto 10% upon regular drinking of Mag life water.
- Increased Profitability and Reduction in cost of Feed.
- Improves quality of meat.
- Product Life is 10 years.

**Mag life Devices are Chemical-Free solution of water with no operational cost, no running cost, no maintenance or replacement of parts. The life of Mag life Devices is at least 10 years.**

1. Magnetic Treatment substantially reduces e.coli, coliform and other bacteria and eliminate waterborne diseases.
2. Water TDS is normalized and balanced (High salted water is otherwise harmful for birds).
3. Water molecules are structured therefore oxygen is added into water after Mag life Treatment.
4. Mag life Device converts water into Biologically Active Water
5. The Egg-laying qualities of birds increase upto 10% upon regular drinking of Mag life water.
6. Birds gain weight faster which reduces maturity period by 3 – 5 days.

7. Mortality and sickness rate is significantly decreased.
8. Mag life water activates red cells in blood which improve blood circulation, therefore the limbs of birds starts working properly.
9. Improves quality of meat.
10. Immune system is substantially improved to resist viral diseases.
11. Biologically Active water prevents gastro-intestinal problems.
12. Increased Profitability and Reduction in cost of Feed.

**Mag life Device is a great news and peace of mind for Pakistani Poultry farming industry and it is very simple to operate with no technical or maintenance requirement.**
